

## **Assessing payment adequacy: Outpatient dialysis services**

**ISSUE:** Are Medicare's payments for outpatient dialysis services adequate? How should payments be changed in 2011?

**KEY POINTS:** At this meeting, we will examine information about the adequacy of current aggregate outpatient dialysis payments. We will look at information about: 1) beneficiaries' access to care; 2) providers' capacity to furnish care; 3) changes in the volume of services; 4) quality of dialysis care; 5) providers' access to capital; and 6) Medicare's payments and costs in 2010.

**ACTION:** Commissioners should discuss the findings presented in the attached briefing materials. The Commission's recommendation about updating payments for dialysis services will be included in the March 2010 report.

**STAFF CONTACT:** Nancy Ray (202-220-3723).
